Risk Profile

Low-Moderate Risk

Where the asset allocation contained in this MDD reflects offshore and equity exposure, the portfolio is exposed to currency and equity risks. The portfolio is exposed to default and interest rate risks. Therefore, it is suitable for medium term investment horizons. The expected potential long-term investment returns are lower but less volatile over the medium to long term than higher risk portfolios.

Effective 25/03/2022: Manager change from SCL. Name change from Saffron SCI Active Bond Fund. Benchmark change from CPI + 2%. ASISA Category change from SA Multi Asset Income. Removal of Reg 28. Annualised return is the weighted average compound growth rate over the period measured.

SAFFRON BCI ACTIVE BOND FUND | CLASS A | MDD as at 30 November 2023

Issue Date: 14 December 2023

Fund Objective

The Saffron BCI Active Bond Fund is an actively managed fixed interest portfolio that invests mainly in nominal and inflation linked government bonds and corporate bonds, with the aim to provide inflation beating returns.

Investment Policy

In order to achieve this objective, the investments normally to be included in the portfolio will comprise a combination of assets in liquid form and a combination of bonds and interest-bearing securities, including loan stock, debentures, debenture bonds, notes, money market instruments, corporate debt and non-equity securities. The portfolio may also invest in participatory interests and other forms of participation in portfolios of collective investment schemes. The portfolio may from time to time invest in listed and unlisted financial instruments. The manager may also include forward currency, interest rate and exchange rate swap transactions for efficient portfolio management purposes.

** Total Expense Ratio (TER)

Please note: A higher TER ratio does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. Transaction Costs are a necessary cost in administering the Fund and impacts Fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Fund, the investment decisions of the investment manager and the TER. The prior year ("PY") TER and Transaction cost calculations are based upon the portfolio's direct costs for the financial year ended 30 June 2023, whilst the underlying portfolios' ratio and cost calculations are based upon their most recent published figures, being 30 September 2023.

Risks

Certain investments - including those involving futures, options, equity swaps, and other derivatives may give rise to substantial risk and might not be suitable for all investors. Where foreign securities are included in the portfolio there may be additional risks such as potential constraints on liquidity and repatriation of funds, macroeconomic risk, political risk, foreign exchange risk, tax risk, settlement risk as well as potential limitations on the availability of market information.

Effective Annual Cost

Boutique Collective Investments adopted the ASISA Standard on Effective Annual Cost ("EAC"). The EAC measure allows you to compare charges on your investments as well as their impact on your investment returns prior to investing. For further information regarding the ASISA Standard on Effective Annual Cost and access to the EAC calculator please visit our website at www.bcis.co.za. BCI calculates the EAC as per the ASISA standard for a period of 3 years up till the most recent TER reporting period.

FAIS Conflict of Interest Disclosure

Please note that your financial advisor may be a related party to the co-naming partner and/or BCI. It is your financial advisor's responsibility to disclose all fees he/she receives from any related party. The portfolio's TER includes all fees paid by portfolio to BCI, the trustees, the auditors, banks, the co-naming partner, underlying portfolios, and any other investment consultants/managers as well as distribution fees and LISP rebates, if applicable. The portfolio's performance numbers are calculated net of the TER expenses. The investment manager earns a portion of the service charge and performance fees where applicable. In some instances, portfolios invest in other portfolios which form part of the BCI Scheme. These investments will be detailed in this document, as applicable.

Disclaimer
